yes, it's Stan's stuff. Too close to my mother?! How dare you! I'm all she's got! Roger: Yes, Francine, this is the mother of this man, for God's sake! What's wrong with her? Francine: But you're the one who said we should talk to him! Roger: Yes, about the possibility of going from cable to dish! I didn't know I was going to get sucked into your psychodrama! By the way, I'm voting for the dish. Flashback Haley, a little older. She has a huge pimple on Hayley's left cheek: I'm disgusting! Stan and Francine are back in the same position, Stan holds the torch: Honey, you can't even see it. Stan: It's beautiful. Roger: Wow, Haley, your cheek is pregnant. Who's the father? Touching your face all day with greasy hands? Haley grabs Roger and smashes him through the window. Then she takes the torch from Stan and starts running around the room with him, screaming and setting fire to the furniture. . famous roger quotes from american dad
